

EVIAN RESORT
CASINO

EVIAN'S ENTERTAINMENT CAPITAL

Located right in the heart of the town of Evian, the Casino is an iconic venue that offers restaurants, a bar, gaming, and organises events and shows all year round. In 2021, the Evian Resort began grand scale renovation work to restore the casino to its original grandeur and splendour. The establishment remains open during the renovation work.

ITS HISTORY

At the end of the **1870s**, the Baron of Blonay, at that time Mayor of Evian, bequeathed his family chateau to the town in order to open a «gaming house» worthy of the name. The building occupied one of the best locations along the lake front and from **1892** was managed by the Evian Mineral Water Company. It was the architect Jean-Albert Hébrard, who also worked on the Cachat pump room and the Hôtel Royal, who rebuilt the central part of the Casino's current building from **1911** onwards and gave the building its architectural identity with a distinct Byzantine feel.

THE CASINO'S THEATRE

Built by architect Jules Clerc, a pupil of Charles Garnier, and inaugurated in **1885**, the Casino's theatre is a masterpiece of neoclassical art. Named the Antoine Riboud Theatre in honour of the founder and chairman of Danone, this architectural gem is classed as an historic monument. A varied line-up of events takes place all year long with pieces of theatre, comedy, magic and music.

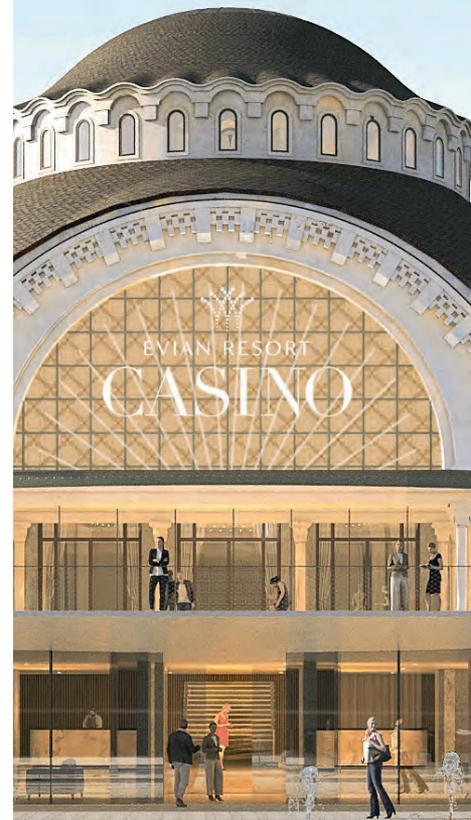

EVIAN CASINO'S REVIVAL

Renovation work to the casino, which will be complete in 2023, will see the majority of the building restored and will significantly modify how the town looks by giving a complete facelift to the façade of this iconic Evian building.

New spaces will be created including a restaurant open to non-gamblers, a bar in the heart of the slot machine area, a brasserie affording breathtaking views of the lake, as well as the rehabilitation of the Antoine Riboud Theatre. The project also focuses on gaming with the installation of cutting-edge machines.

The Evian Resort has entrusted the renovation project to **Philippe Prost and his architect firm AAPP** and their brilliant approach to bringing historic heritage up-to-date.

EVIAN CASINO IN BRIEF

- A grand scale renovation project
- Almost 200 slot machines, 37 electronic game stations, and 9 traditional gaming tables including the only French roulette machine in the Lake Geneva area
- Private reception rooms for meetings, weddings and other events
- An historic 290-seat theatre, a masterpiece of neoclassical art
- 3 restaurants and a bar
