AN ESCAPE INTO THE GREAT OUTDOORS

Evian Resort's hotels are located in the heart of 47-acre private grounds, home to an abundance of biodiversity and a wonderful place to explore for guests in search of tranquillity, with nearly 600 trees, some of which are centenarians.

The grounds are an absolute nature reserve for birds and squirrels, which are part of the LPO (League for the Protection of Birds), and have become an LPO bird sanctuary.

The gardens are filled with varied landscapes, tree-lined zones, gardens, meadows, honey-producing plains, wooded areas, a lake, a rose garden, an orchard, a traditional kitchen garden and panoramic views of Lake Geneva.

Their upkeep is performed by a team of gardeners who are trained in the environmental management of green spaces, and only use natural, organic products.

A 3,000m² natural, organic kitchen garden, located in the grounds of Hôtel Royal, is the perfect example of our gardeners' expertise, as seen in the way they implement permaculture techniques and use organic seeds and compost to grow aromatic herbs in collaboration with Chef Patrice Vander who picks them for use in menus at his Michelin-star restaurant Les Fresques.

Hôtel Royal also has its own beehives and produces its own honey.

A PARADISE WITH SOMETHING FOR EVERYONE
